

# The United Kingdom Hydrogen Association

## Membership Package

### Reasons to Join the UKHA

**The UKHA draws together an extensive network of industry stakeholders.** Membership is open to companies, organisations and individuals with a commitment to increasing opportunities for hydrogen energy in the United Kingdom. Stakeholders in the production, storage, delivery, or use of hydrogen or hydrogen technologies are welcome to join.

When you join the UKHA, you will be instantly connected to an extensive network of organizations, all working to promote hydrogen technologies in the 21st century. With a diverse network of stakeholders, your potential to break down barriers to commercialization of hydrogen and its enabling technologies is increased exponentially.

UKHA members enjoy a variety of benefits:

#### **Networking and Exposure to National and International Markets**

- Receive exposure in UKHA publications
- Benefit from national education and outreach programmes
- Interact with member organizations on the forefront of hydrogen R&D and industry
- Receive exposure in events where the UKHA participates

#### **Increased Partnering and Business Exposure**

- Partner with the UKHA and other members on committee activities
- Access government calls
- Identify potential partners and customers

#### **Influence in Hydrogen Legislation, Policy, and Safety Standards**

- Access legislative and policy resources
- Receive energy policy updates
- Work through the UKHA and its members to shape the future of hydrogen policy
- Work with the UKHA to develop and influence standards, guidelines and regulations

#### **UKHA Publications**

- Receive all regularly-published UKHA publications, including announcements and web updates

#### **Generous Member Discounts**

- Receive discounts on registration and exhibit fees at future UKHA Meetings and Conferences
- Take advantage of discounts on sponsored UKHA publications, and more

#### **Custom Membership Levels**

- Choose a membership level to fit your organization's profile, including Sustaining, Industry, Small & Medium Enterprise, Related Organisation, University/Education, and Individual

# Membership Classes

**The UKHA offers a variety of membership classes to potential members:**

## **Sustaining Members**

Sustaining Membership is open to all organisations that are eligible for any of the other membership classes (see below), that prefer the benefits of increased participation in all UKHA programmes and assurance of a seat on the UKHA Board of Directors, up to a defined limit (currently 12). In addition, sustaining members are the only voting members of the UKHA Policy Committee.

## **Industry Members**

Private companies, public or private utilities, organisations created by companies or utilities, or major buyers or users of hydrogen which already are involved or have plans to become involved in the production, storage, transportation, utilization, or technology related to hydrogen, are eligible for membership as Industry Members. Industry Members are entitled to proportionate representation on the Board of Directors, as defined in the membership document “UKHA Board Elections”..

## **Small/Medium Enterprise Members**

SME Members are organisations which, except for size, would be qualified to be Industry Members. SME businesses are those that are registered as a qualifying SME in the UK, or otherwise have fewer than 250 employees. SME Members are entitled to proportionate representation on the Board of Directors.

## **Related Organisations**

Related Organisations include hydrogen energy and/or fuel cell projects, associations, groups and all non-profit organisations, interested or involved in hydrogen production, storage, transportation, utilization or technologies which can benefit from information-sharing, collaboration, and the creation of a single voice to promote hydrogen energy technologies in the United Kingdom. Related Association Members are entitled to proportionate representation on the Board of Directors.

## **University/Education Members**

Universities, education organisations, and highly qualified individuals dedicated to education, research scholarship, or other academic or theoretical pursuits relating to hydrogen production, storage, transportation, utilization or technologies, are eligible for membership as University/Education Members. University Members are eligible to shape UKHA policies and materials that serve to educate end-users of hydrogen technologies, as well as policies relating to Research & Development priorities. University/Education Members are entitled to proportionate representation on the Board of Directors.

## **Individuals**

Individual membership is open to individuals who have no affiliation with organisations defined above. Individual members may participate in committee activities and receive other benefits afforded to members, but have no voting rights and no representation on the Board of Directors.

**The UKHA membership provides value to its members by;**

- ❖ Advocating strongly for a positive social, political and economic environment for the development of hydrogen energy in the UK
- ❖ Representing the shared interests of its members, using a collective approach to maximise impact and effectiveness
- ❖ Providing a voice to answer concerns and issues about hydrogen energy
- ❖ Giving guidance on research and deployment priorities
- ❖ Subject to the UKHA's Competition Law Compliance Programme, sharing non commercially sensitive information and facilitating knowledge transfer
- ❖ Promoting the development of best practise and its adoption
- ❖ Influencing government and company policies in the UK to support hydrogen energy research and development
- ❖ Influencing the policies of public and private sector organisations to support hydrogen energy deployment in the UK
- ❖ Representing members' interests with European and International organisations and initiatives

If you are interested in becoming a UKHA member, or if you have other questions regarding your affiliation with the UKHA, please feel free to contact Karen Hall, Administrative Manager, at any time.
